

SOLUTIONS GUIDE

EMPOWERING SAFE AND
SMART CITIES

ABOUT GORILLA TECHNOLOGY

EMPOWERING YOUR TOMORROW

Gorilla, headquartered in London U.K., is a global solution provider in Security Intelligence, Network Intelligence, Business Intelligence and IoT technology. Gorilla provides a wide range of solutions, including, Smart City, Network, Video, Cybersecurity and IoT across select verticals of Government & Public Services, Manufacturing, Telecom, Retail, Transportation & Logistics, Healthcare and Education.

The Company's vision is to empower a connected tomorrow through innovative and transformative technologies. Gorilla envisions a world where seamless connectivity transcends boundaries, enriching lives, industries, and societies. Gorilla's commitment is to lead the way in pioneering cutting-edge solutions that bridge gaps, foster collaboration and inspire progress. By relentlessly pushing the boundaries of technology, the Company aims to create an ecosystem where individuals, businesses and communities thrive in an era of digital empowerment.

Through continuous innovation, ethical practices and a steadfast dedication to quality, Gorilla strives to shape a future where every interaction, transaction, and experience is enhanced by the power of technology.

22+ YEARS OF OPERATIONS

 Buildings	Building Automation	- Data Center Design - Edge AI	- Energy Conservation - Behavior Analysis - Vehicle Control & Parking Management	- IoT Security - Cybersecurity	- Security and Surveillance - Energy Management

GORILLA EDGE AI

SUPERCHARGING YOUR DEVICES WITH AUTONOMY & INTELLIGENCE

BECOME INTELLIGENT AT THE EDGE OF YOUR NETWORK

Gorilla Edge AI makes devices at the edge of your network smarter. It's time to stop thinking of your edge devices as simply "tools" but as intelligent assistants that make split-second decisions about where events and actions happen.

Gorilla Edge AI unleashes a new era of innovation in real-time with actionable insights and capabilities, making your IoT devices (such as cameras, sensors, and more) smarter, faster, more responsive, and more secure.

FEATURES

- ✓ Real-time Decision Making on the Edge
- ✓ Massively Reduced Latency
- ✓ Secure Edge Computing
- ✓ Intelligent Video Analytics
- ✓ Future-Ready for Smart Countries and Enterprises

HOW IT WORKS

Our Edge AI Goes Beyond Mere Data Collection and Storage

BIG DATA COLLECTION

AI collects big data from across all IoT devices in real-time.

BIG DATA ANALYSIS

AI instantly analyzes big data and extracts valuable patterns and insights.

ACTIONABLE INSIGHTS

The processed data fuels immediate decision-making, enhancing efficiency and responsiveness.

INDUSTRIES

EMPOWERED WITH THE GORILLA EDGE

GOVERNMENT & PUBLIC SERVICES

Revolutionize quality of life and boost economic competitiveness with Gorilla's cutting-edge AI solutions.

Applications

- Urban Planning
- Smart Schools & Universities
- Smart Policing
- Smart Governance

BUILDINGS & OFFICES

Empower spaces with data-driven decision-making across all systems with innovative technology.

Applications

- Smart Parking
- Security Solutions
- Entry Solutions
- Elevator Solutions

TRANSPORTATION & LOGISTICS

Streamline operations through advanced analytics, predictive maintenance, and intelligent route planning.

Applications

- Smart Ports
- Smart Roads & Intersection
- Smart Railways
- Smart Airports

COMMERCE & HEALTHCARE

Reshape the industry, drive operational efficiency, and enhance infrastructure security.

Applications

- Smart Retail
- Smart Hotels
- Smart Hospitals
- Smart Restaurants

GET ACTIONABLE INSIGHTS

GORILLA VIDEO ANALYTICS AI

Impressive Real-time Detection

Machine Learning for Any Event

Scalable and Easy Integration

Rapid Data Extraction

Comprehensive Dashboard with Visuals

Enhanced Security and Investigations

Innovative Predictive Business Intelligence

Actionable Insights for Greater Impacts

CORE CAPABILITIES

Innovative Video Analytics for Smarter Cities and Enterprises

FACIAL RECOGNITION

- Real-time Facial Detection
- PPE (Eyewear & Mask)
- Watch Lists
- VIP Lists & Block Lists

LICENSE PLATE RECOGNITION

- Real-time License Plate Detection
- Compare License Plates Across a Database

BEHAVIOR ANALYTICS

- People Counting
- Intrusion & Line Crossing
- Crowding & Loitering
- Direction Detection

VEHICLE ANALYTICS

- Vehicle Detection & Classification
- Vehicle Counting
- Vehicle Direction Detection

BUSINESS INTELLIGENCE

- Real-time Event Displays
- Fast Response Times
- Manage In-store Layouts
- Cybersecurity Integrations

CRIME ANALYSIS

- Analyze Hundreds of Cameras in Real-time
- Allow Police to Access & Gain Actionable Insights

GORILLA'S COMPREHENSIVE AI-BASED

VIDEO INTELLIGENCE

IVAR®

Intelligent Video Analytics Recorder

Manage people, vehicles, and objects to gain the actionable insights you need to enhance operations and safety.

Features

- Face & Human Analytics
- Behavior Video Analytics
- Vehicle & License Plate Analytics
- Crowd & Response Analytics

EVMS

Edge Video Management System

Store event and object data to deliver up-to-the-minute actionable insights for operational management.

Features

- Manage Monitoring Groups
- Geographical Event Alerting
- Intuitive Statistical Dashboards
- Search Analysis

Post Event

End-to-End Video Investigation Solution

Review footage in record time to solve crimes, protect lives and assist in arrests, keep your communities safe.

Features

- Convert Any Video Format
- AI-Powered Video Search
- Case Management System
- Dynamic Maps
- Video Editing and Viewing Tools

iCCTV

Deploy AI-Powered Solutions for Policing

Connect to live camera feeds to give immediate and actionable video intelligence for vastly improved outcomes.

Features

- Face Recognition
- Vehicle Analytics
- People Analytics
- Object Analytics
- Threat Analytics

SECURITY CONVERGENCE

Advanced AI-based Threat Detection

Early Threat Detection and Intervention

Easily Process Incidents with AI Automation

Tailored AI Network Security

Analysis of Targeted Attack Activities

Reduce Labor Required to Protect Networks

Secure Intellectual Property & Brand Equity

Safeguard Confidential & Customer Information

Shorten Response Times when Attacks Occur

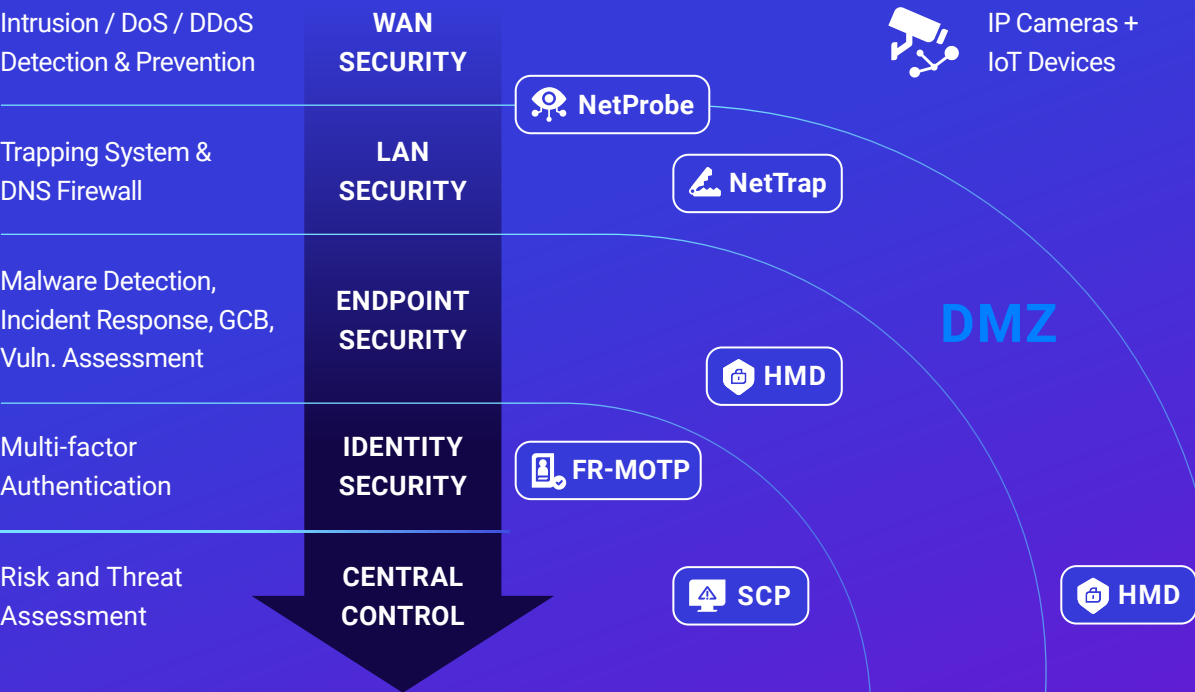

Uncover Root Causes of Security Problems

Uninterrupted Business Operations

END-TO-END AI-BASED CYBERSECURITY

for OT & IT Environments

ALL-IN-ONE SOLUTION

NetProbe

Continuous Threat Detection

Detect and prevent malicious network attacks from outside of the organization.

Features

- Detection Module
- Defense Module
- Instant Alerts and Notifications
- Centralized Platform with Statistical Displays

NetTrap

Internal Network Anomaly Detection

Prevent malicious site access, detect network threats early, and simplify management.

Features

- Defense System
- DNS Security Protection
- Instant Alerts and Notifications
- SNMP Support and SIEM Integration
- Centralized Platform with Statistical Displays

HMD

Host-based Malware Detection

Identify unusual activity and secure at-risk software to ensure complete endpoint security.

Features

- Threat & Weakness Detection
- Advanced Persistent Threat Protection
- Centralized Reporting Module
- Incident Response
- Automated Program Delivery

FR-MOTP

Biometric Multi-Factor Identity Authentication

Utilize advanced multi-factor authentication to strengthen access control systems.

Features

- Facial Recognition Authentication
- Mobile App Authentication
- Server-Side Authentication
- FR-MOTP Server Storage
- Scalability and Deployment

SCP (Security Convergence Platform)

Comprehensive Management of Corporate Security

Unify various network and endpoint data and provide actionable assessments of threat levels on intranet and endpoints.
