SMART POLICING

Empower Possibilities with
Smart Policing Solutions

Integrate a Criminal Intelligence Big Data
Platform for comprehensive data
analysis, a Criminal Intelligence Analysis
Platform for faster investigations, and a
Smart Patrol system for predictive,
data-driven patrolling—enabling
proactive, effective law enforcement
across digital and physical environments.

Security Convergence

Video Analyitcs

- Actionable Insights for Quick
  Incident Reaction
- Seamless Operations with
  Secure Communications
- Faster Investigation Analysis
- Enhanced Patrol Routes

Network Security

- Server Protection
- Endpoint Protection
- Trap Cyber Threats

GORILLA

SMART POLICING SOLUTIONS

Administration

Big Data & Intelligence	Enhance Strategy & Decision Making
Infrastructure	Cut Costs & Improve Services
Video Intelligence	Optimize Attendance & Building Access
Security Convergence	Safeguard Physical & Digital Assets
Internet of Things	Maximize Building Efficiency through Automation

Patrol

Big Data & Intelligence	Predictive & Proactive Maintenance
Infrastructure	Increased Operational Efficiency & Stability
Video Intelligence	Real-time Behavior Detection & Alerting
Security Convergence	Increased Reliability & Security
Internet of Things	Enhanced Schedule, Condition, and Vehicle Flow Automation

Investigative

Big Data & Intelligence	Improve Evidence Accuracy & Correlation
Infrastructure	Enhance Resource Allocation
Video Intelligence	Reduce Investigation Times
Security Convergence	End-to-end Data Security
Internet of Things	Improve Big Picture Resolution with Data

Traffic

Big Data & Intelligence	Enhance Pattern & Trend Analysis
Infrastructure	Improve Traffic Safety & Collaborations with City Planning
Video Intelligence	Automate & Improve Incident Detection & Response
Security Convergence	Optimize Physical & Digital Security
Internet of Things	Integration & Automation for Enhanced Incident Detection & Response

Customer Services

Big Data & Intelligence	Enhanced Crime Map Accuracy
Infrastructure	Cut Costs & Improve Services
Video Intelligence	Bolster Confidence in Communities
Security Convergence	Safeguard Physical & Digital Assets
Internet of Things	Increased Efficiency through Automation

AI-powered Security Operations Center

Real-time Alerts and Actionable Insights for Safer Policing Operations

Security Convergence

All-in-one network and digital asset protection. From internal and external threats across digital and physical landscapes, innovative AI-powered IT and OT security technology has you covered.

Intelligent Video Analytics

Detect and Prevent Crime Faster

- Assists in Locating Persons of Interest
- Analyze Footage Faster and in Real-time
- Data Integration and Pattern Recognition

Actionable Insights for Police

- Gun and Knife Possession Detection
- Real-time Information to Frontline Dispatchers
- Improved Emergency Preparedness with Faster Responses

Anticipate Criminal Patterns

- Temporal and Spatial Pattern Correlation
- Anomaly Detection and Trend Identification

System Integration

- Supports Every Major CCTV and IP Camera Protocol
- Seamlessly Integrates with Existing VMS Software

Enhanced Patrol Routes

- GIS and Geospatial Mapping
- Synced Mobile and Camera Analytics
- People, Vehicle, and License Plate Detection
- Heightened Community Safeguarding

Seamless Operations with Secure Communications

- Centralized Security Operations Center
- Streamlines Workforce Operations
- Intelligence Analysis Platform
- Bolsters Security Measures

Network Security

Anti-DDoS

Detects and blocks threats from malicious IP connections to DDoS attacks with AI.

Honeypot

Clamps down on malicious activity and effortlessly blocks suspicious queries.

Multi-Authentication

Identity theft and brute force attack prevention with multi-layered AI.

Endpoint Protection

Combines real-time continuous monitoring and collection of endpoint data.

SUCCESS CASE

Taiwan
Ensuring Efficiency & Safety

POLICE

A law enforcement agency in Taiwan approached Gorilla to help them deploy an intelligent law enforcement system with an AI-powered, centralized platform to help manage enormous amounts of data related to suspect IDs, locations, criminal associations, and evidence. The data needed to be used to prevent fraud, money laundering, online gambling, and other crimes.

Solutions

Criminal Investigation Big Data	Connected lawful interception data, communcation data, forensics data, and other dynamic
Criminal Management	Provided GIS for time spatial visualization- with real-time tracking and historical Data
Temporal/Spatial Correlation and Link Analysis	Provided correlation between criminal cases, persons of interest, and objects such as cell phones, vehicles, and more

Results

Successfully Collected and Analyzed Records

Deployed the Solution Across 19 Cities

Enhanced Law Enforcement Across 19 Cities

RECOMMENDED HARDWARE
Edge Vision AI E-300

- For indoor and harsh outdoor environments
- Deployed with customized or pre-loaded video analytics
- Multiple video analytics in one AI
- Hailo-8's chipset - more channels of video with less powerful CPUs.
