

SMART BUILDINGS & OFFICES

AI for Safer and More Efficient Building Management

Transform existing structures into intelligent hubs, enhancing operational efficiency and fortifying security measures. Are you ready to revolutionize entry management, optimize elevator usage, and create intelligent, secure environments for your organization?

Security Convergence

Video Analytics

- Secure Building Access Control
- Real-time Actionable Insights
- Seamless Attendance Tracking
- Proactive Security Measures

Network Security

- Server Protection
- Endpoint Protection
- Trap Cyber Threats

Get More From Your Entire System with Gorilla

SMART BUILDING AND OFFICE SOLUTIONS

Property Management

Big Data & Intelligence	Better Decision Making & Greater Transparency
Infrastructure	Improved Visitor Flows, Cheaper Heating/Cooling
Video Intelligence	Increased On-site Safety & Security
Security Convergence	Integrated View of Security Threats
Internet of Things	Optimize Energy Use

Development

Big Data & Intelligence	Improve Efficiency & Decision Making
Infrastructure	Lower Operational Costs
Video Intelligence	Facilitate Customer Journey Creation
Security Convergence	Strengthen Facility & Data Protection
Internet of Things	Maximize Automation

Sales & Marketing

Big Data & Intelligence	Uncover Market Trends & Customer Preferences
Infrastructure	Improve Efficiency & Sustainability
Video Intelligence	Behavior Insights
Security Convergence	Enhance Property Value Proposition
Internet of Things	Improve Tenant Experience Through Automation

Brokerage

Big Data & Intelligence	Optimize Profitability Analysis
Infrastructure	Maximize Property Values
Video Intelligence	Insights into Property Use
Security Convergence	Close Vulnerability Gaps
Internet of Things	Streamline Tasks

Lending

Big Data & Intelligence	Optimize Investment Analysis
Infrastructure	Enhance & Optimize Holdings
Video Intelligence	Improve Client Experience
Security Convergence	Safeguard Physical & Digital Assets
Internet of Things	Insights into Property Use

AI-powered Security Operations Center

Real-time Alerts and Actionable Insights for Safer Building and Office Operations

Security Convergence

All-in-one network and digital asset protection. From internal and external threats across digital and physical landscapes, innovative AI-powered IT and OT security technology has you covered.

Intelligent Video Analytics

Efficient Site Management

- Real-time Actionable Insights
- Optimized Space Utilization
- Energy Efficiency & Cost Savings

Access Control Precision

- Temporal & Spatial Access Control
- Prevent Restricted Area Intrusions
- Streamlined VIP & Blocklist Management

Secure Building Access

- Proactive Security Measures
- Personalized & Real-time Safety Alerts
- Integrated Security

System Integration

- Supports Every Major CCTV and IP Camera Protocol
- Seamlessly Integrates with Existing VMS Software and Countless IoT Devices

Smart Elevator System

- Optimized Elevator Usage
- Increased Energy Efficiency
- Minimized Over Capacity Events

Cost-effective Operations

- Precise Access Management
- Seamless Attendance Tracking
- Bolsters Security Measures

Network Security

Anti-DDoS

Detects and blocks threats from malicious IP connections to DDoS attacks with AI.

Honeypot

Clamps down on malicious activity and effortlessly blocks suspicious queries.

Multi-Authentication

Identity theft and brute force attack prevention with multi-layered AI.

Endpoint Protection

Combines real-time continuous monitoring and collection of endpoint data.

SUCCESS CASE

Indonesia

A leading multinational food and beverage company approached Gorilla to deploy a solution to assist in opening their offices with a hybrid working model that was post-pandemic compliant.

Solutions

Video Analytics	Deployed facial recognition with temperature detection at the entrance and verified employees' and visitors' identities, health conditions, and permitted access.
Online Desk and Meeting System	Streamlined meeting booking with an online system, which granted power and desk usage to confirmed bookings.
System Integrations	Access to the office required a QR-code authentication and facial registration, and all entry and exit data was digitally recorded.

Results

Deployed an Online Meeting System

Reduction in Manual Processing Time

Safer and Post-Pandemic Compliant Office

RECOMMENDED HARDWARE

Edge Vision AI E-300

- For indoor and harsh outdoor environments
- Deployed with customized or pre-loaded video analytics
- Multiple video analytics in one AI
- Hailo-8's chipset - more channels of video with less powerful CPUs.
